

## Waste Management on site and in office

### Statement of policy

This policy has been put in place to ensure QiRC are following the process of waste management. We will adopt the principles of the 'best practicable environmental option' in the delivery of its waste management services.

Policy objectives:

1. To reduce the volume of hazardous waste
2. To ensure waste is managed according to legislative requirements
3. To always keep a clear working environment
4. Dispose of waste immediately and if hazardous inform directors who will inform competent persons

### Our company's actions:

We will:

- Ensure suitable skips are delivered to working sites for the duration of a project and are collected once works are completed
- Ensure we keep our working areas clean and tidy after every working day and on-site premises are left how we expect to find them
- Ensure any hazard wastes are disposed of by competent persons

Qi Refurbs and Contracts Ltd hold a Waste carriers license under the Waste (England and Wales) Regulations 2011.
